

CARBLUE

CAR WASH SHAMPOO

» Features

Liquid blue colour. Chemical reaction of low alkalinity, not caustic. Biodegradability higher than 90%.

» Properties

CARBLUE is miscible in water in all proportions. Active compound against grease and dirtiness.

CARBLUE is stable with any water hardness, leaving the surface after washing, very bright.

» Application

In manual washing, dilute **CARBLUE** in proportion of 1 litre of product to 125 litres of water, depending on the dirt and the application mode. To finish, wash with clean water to remove the remnants of the foam and leave to dry the vehicle preferably at the shade.

» Cautions

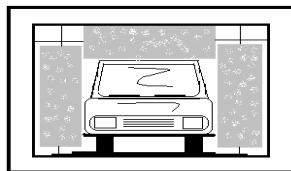

Keep out of children reach. Do not mix with other detergents. Protect from cold. Always carry out a test to determine the compatibility and the contact time appropriate. Chemical: Always read the label before using.

Manual Washing

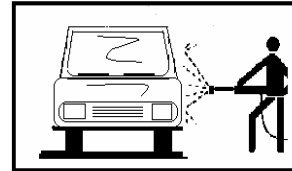

- 1º Wet previously the car with water.
- 2º Dilute 1 litre per 125 litres of water in a bucket.
- 3º Wash.
- 4º Finish the final wash with clean water.

Washing Gantries

Dilution to output of sprayers:
1 litre of product until 200 litres of water

High Pressure Cleaning

- 1º Wet previously the car with water.
- 2º Dilution at lance output: 1 litre of product until 300 litres of water.
- 3º Leave 1 or 2 minutes to act.
- 4º Finish the final wash with clean water.
