

# IPOCLOR

EFFERVESCENT TABLETS WITH A HIGH DISINFECTANT POWER

## » Features

Disinfectant effervescent tablets, of white colour and chlorine scent. Very economical and easy to use. Non-corrosive.

## » Properties

**IPOCLOR** is a powerful disinfectant against bacteria, mycobacteria, viruses and fungi. Its disinfectant efficacy was tested by the following European norms: **EN 1276, EN 1040, AFNOR NFT 72150, AFNOR NFT 72170, AFNOR NFT 72190, AFNOR NFT 72290 and AFNOR NFT 72301**. Its properties allow that after mixed with water, stay with a neutral pH.

## » Utilization

**IPOCLOR** is used diluted in water for disinfection in schools, hospitals, clinics, veterinary, seniors home, offices, agro-food industry, restaurants, gyms, spas, swimming pools, etc ...

## » Cautions

In contact with acids it liberates toxic gas. Do not breathe the vapour. Keep out of children reach. Do not mix with other products. Use only in well ventilated areas. In case of contact with eyes, wash immediately with plenty of potable water and consult a specialist. In case of fire and / or explosion do not breathe the smoke. Keep container dry. Chemical product: Always read the label before using.

Quality food product, in terms of cleaning materials and equipment that can be in contact with food products, a simple cleaning with potable water is enough before drying

CONTAINS SODIUM DICHOROISOCYANURATE  
(1,7gr. PER TABLET)
