

SANIMAT

MULTIPURPOSE CONCENTRATED DEGREASING DETERGENT

» Features

Yellow liquid with the smell of citrus fruits.

» Properties

Water-miscible in all proportions, easily washable, stable in water of high hardness.

SANIMAT is not classified as hazardous chemical substance or preparation. According to Directive 88/379 of E.U.

Its bacteriostatic active function limited the microbial proliferation.

SANIMAT has great degreasing power on the surfaces, materials or utensils. His high wet power favours the depth penetration in the dirtiness

SANIMAT is a neutral product. Free of caustic substances, phosphates or silicates.

» Utilization

SANIMAT is used to clean all washable surfaces, painted surfaces, plastic, metal, etc ... in hospitals, clinics, nursing homes, schools, institutional kitchens, restaurants, etc ...

» Application

SANIMAT is applied manually diluted in 1 litre to 500 litres of water, in function of dirtiness. **SANIMAT** can be diluted with cold or hot water, and applied with mop, sponge, or other.

» Cautions

Close the packing after each use. Keep out of children reach. In case of contact with eyes, wash immediately with plenty of potable water. Protect from cold. Always make a test to determine the compatibility and the appropriate contact time. Chemical product: Always read the label before using.

Quality food product, in terms of cleaning materials and equipment that can be in contact with food products, a simple cleaning with potable water is enough before drying
